

CYNCH-LOK™  
POSITIONING LANYARDS

# IT'S A NEW DIRECTION IN POLE CLIMBING

**CYNCH-LOK™**

DBI  
**SALA**®

THE ULTIMATE IN FALL PROTECTION

# CYNCH-LOK™ GETS YOU THERE FASTER AND SAFER.

Climbing wood poles is one of the most difficult applications in the realm of height safety. So we took a new approach and asked electrical utility workers to help us make a better strap. The result is our new Cynch-Lok™ Fall Restricting Pole Strap - the most user-friendly device of its kind.

## Cynch-Lok™ features almost effortless adjustment.

It allows you to easily hitch-hike poles (reposition, move or jump the strap upwards) with a hand position that's comfortable. It also moves past obstacles without difficulty.

Cynch-Lok™'s unique design 'cynches' around a pole, gripping it and allowing you to position yourself wherever you need to be. When used correctly, it supports your full body weight allowing you to position yourself freely and reduces pressure on your back up fall arrest system.

As the global leader in fall protection, it's our goal to provide you with gear that's lightweight, easy to use and built for your demands.

# ▶ CYNCH-LOK™ FALL RESTRICTING POLE STRAP

## CYNCH-LOK™ ADJUSTMENT

The exterior strap has simple “slide into place roller adjustment” that allows you to adjust to the pole’s diameter during a climb with one hand.

## PINCH FREE, ERGONOMIC GRIPS

Strap ends give you a comfortable gripping location, away from potential pinch hazards. Worker can use a standard hitch-hiking motion without substantial effort.

## PROTECTED LABELS

Velcro cover with i-Safe™ helps keep labels protected and legible.

## STOPPING CLEAT AND CARABINER

Specially designed and uniquely cleated plate and carabiner help by gripping the pole when the strap itself ‘cynches’.

## ABRASION RESISTANT SLEEVE

A mobile protective sleeve helps prevent abrasion of the interior rope, prolonging product life.

## INDICATING STRAP AND ROPE

A neoprene impregnated nylon strap and adjustable rope lanyard contain an indicating core, letting you know when the product is worn enough to need replacement.

## ROPE ADJUSTER

Easy to use torsion spring for greater strength and enhanced mobility, allows user to position comfortably on the pole.

## TECHNORA ROPE

Double braided rope with a technora core is cut and fire resistant, and yields high tensile strength.

## LIGHTWEIGHT DESIGN

At 2.2kg, your Cynch-Lok™ becomes a tool - not a burden.

## STANDARDS

Meets EN358 Work Positioning Standard.

### TECHNICAL SPECIFICATIONS

Item Number: **1204054**

Pole Dimension Compatibility  
(Diameter/Circumference)

Min = 14cm

Max = 40cm

### SPECIFICATIONS

- ▶ Webbing – Neoprene Impregnated Nylon
- ▶ Connectors – Alloy steel 22kN tensile strength, 16kN gate strength
- ▶ Cynch-Lok™ Adjustor (turned o-ring) – High strength alloy steel construction with zinc plating for corrosion resistance
- ▶ Rope Adjustor – Lightweight Machined aluminium with anodized finish
- ▶ Stopping Cleat – Heat treated steel with zinc plating for corrosion resistance
- ▶ Rope – 45kN tensile strength, Nylon core static kernmantle rope
- ▶ Rivets – High alloy stainless steel semi tubular rivets
- ▶ Thread – Size 346 Polyester threads

## GLOBAL LEADER IN FALL PROTECTION

Capital Safety is one of the world's leading manufacturers of fall protection and rescue equipment, with decades of experience and a legacy of innovation.

We understand the industries we serve and listen to the workers in the field. We employ the best engineers to create innovative solutions and patent the products that keep workers safe at heights around the world. Capital Safety has the best quality and largest range of fall protection products in the industry. But we're more than a product company.

We take an innovative approach in bringing our products to the field. We have created international partnerships and a vast network of authorized distributors, certified installers and service centres. We offer on-site and in-house training.

Look for complete solutions in our extensive line of DBI-SALA® and Protecta® products.
